Summary

Hungry for an opportunity to begin my dream career in Frontend Development.

I love writing code and I appreciate a beautiful UI. I welcome a challenge and my competitive edge keeps me driven. I have many years experience in a professional work setting which has allowed me to learn to efficiently manage my personal time and facilitate a habit of continued education outside of regular full-time work hours. Autonomous learning is well within my comfort zone and I look forward to hurdles.

Experience

General Manager

Southern Rock Restaurants | McAlister's Deli

Jun 2002 - Present (19 years 10 months +)

• Remotely facilitate internal inventory and P&L audits for 40+ locations across 4 states
